

Maintenance Brushes

Product Summary

Scratch Brushes

Popular Shoe Handle and Curved Handle scratch brushes in carbon steel, stainless steel and phosphorous bronze. Choose from classic wood handle, or new graphite black synthetic handles featuring improved ergonomics and comfort. Includes a complete selection of chip and scratch brushes produced entirely from metal.

78

Block Brushes

Straight and curved back block brushes are available in a variety of block sizes and filament styles. For tough cleaning applications.

82

Maintenance Brooms

A wide selection of quality surface sweeping brooms. Filaments range from soft horsehair to stiff palmyra and steel wire for a variety of sweeping needs.

84

Upright and Whisk Brooms

Available in a variety of fibers for a wide range of tasks, ADVANCE upright brooms and whisks are quality-built to provide a long service life. Products are available for smooth floors, rough surfaces, wet or dry, light or heavy duty. Commercial and industrial applications.

88

Broom Handles and Accessories

Features variety of threaded handles and poles for use with push brooms and squeegees, as well as floor sweep braces and brace handles.

90

Utility Brushes

A wide selection of quality-constructed utility brushes in natural, synthetic and wire filaments. Includes sanitary brushes, bottle brushes, radiator and can swabbing brushes, counter dusters and more.

92

Scrub Brushes

Block and Handled style brushes for a variety of cleaning and scrubbing tasks. Includes floor and deck brushes, hand brushes and gong brushes.

94

Product Summary

Squeegees

A complete range of squeegees for windows and floors, along with replacement rubber. Small, window squeegees ranging from 6" width through 18". Large, floor-type available in straight and curved, in standard and heavy duty styles.

95

Small Specialty Brushes

A variety of hand tube brushes designed for special-purpose use. Includes air tube brushes, percolator brushes and rubber hose brushes.

96

Platers and Moulders Brushes

Includes a wide selection of bristles and styles. Durable construction products in natural bristle and wire filaments. Selection of shoe handle, curved handle, file cleaning, wire dusters and soft moulders brush.

97

Tube and Automotive

Section includes parts cleaning brushes, spoke brushes, acid and side wall brushes and more.

99

Flue, Boiler and Pipe Brushes

An excellent selection of brushes for internal and external cleaning of cylindrical parts and tubes. Includes internal tube brushes and our new 4-in-1 pipe-fitting tool.

100

Painters Sundries, Chip and Paint Brushes

A complete range of general purpose, economical, throw-away chip, value paint/chip brushes, varnish brushes, wall brushes, painters sundries, stencil and marking brushes.

104

Paint Rollers and Accessories

A complete line of rollers, trays, handles, and other painting accessory and replacement items.

106

Wood Handle Brushes

ADVANCE Scratch Brushes

ADVANCE scratch brushes are manufactured to exacting standards on state-of-the-art production equipment. This ensures that all wire tufts are precision-located on the block to ensure uniform and consistent brushing performance, and long service life. ADVANCE premium hardwood scratch brush blocks are kiln-dried to keep wire tufts firmly in place, and hand-selected to ensure straightness and quality. A complete new offering of molded plastic handle scratch brushes is now available.

Plastic handle brushes are more comfortable, especially in Shoe Handle style, due to ergonomic construction. They provide good leverage, allowing a more powerful brush stroke than can be achieved with a curved handle brush. And, they won't rot, splinter or crack over time - providing good longevity for the occasional user. Optional scraper (1-7/16" wide) for loosening especially difficult material.

Curved Handle Hardwood

General purpose brushing tools for maintenance applications. Removal of rust, paint, scale, dirt and other debris. Cleans metal parts, threads and much more.

Wire Rows	Brush Part Length	Fill Material	Block Size l x w	Trim Length	Qty	EDP Number	
						without scraper	with scraper

**Pipeliner
Dauber Brushes**

Wire Rows	Brush Length (Inches)	Fill Material	Block Width	Trim Length	Qty	EDP Number
5 x 10	5-1/8	Tampico	2-9/16	1-5/16	12	85101

White Tampico brush for hand-applying pipe coatings. Brush head 3-1/2" oval.

Floor Sweeps – Fine Sweeping

Vantage Product Line

ADVANCE BRUSH is proud to introduce the new VANTAGE line of maintenance brushes and accessories. The VANTAGE line features a complete selection of high quality hand brushes including brooms, paint and chip brushes, and much more for home, industrial and professional use. VANTAGE is the new solution for your maintenance brush needs.

Wide selection of filaments

Stiffness, liquid retention, durability and cost are just a few of the characteristics that make certain fibers better for certain jobs. We offer many varieties of both natural and synthetic filaments in our maintenance brushes and floor sweeps.

Please refer to the chart on **page 6** of this catalog for detailed information on all of our available filament types.

“Flagged” filament

Many brushes have “flagged” (also known as “feathered”) bristles. Flagged bristles

contain split ends which decrease stiffness and add liquid and dust retention properties. This soft, synthetic fiber is ideal for dusting, fine sweeping of smooth surfaces and washing vehicles without scratching.

FS - 01

100% black horsehair bristles, for fine sweeping of smooth floors such as tile, linoleum, polished hardwood, etc.

FS - 02

High-quality sweep for best cleaning of fine dirt on smooth floors. Horsehair-nylon mix stapled into lacquered hardwood block with two threaded handle holes.

FS - 04

Flagged bristles for sweeping smooth, highly-polished floors and smooth concrete. Sweeps even the finest dust or grit. Two threaded holes.

FS - 04P

Flagged bristles for sweeping smooth, highly-polished floors and smooth concrete. Sweeps even the finest dust or grit. Foam plastic block.

Floor Sweeps – Medium Sweeping

Medium sweeping brooms are for general purpose maintenance tasks. All staple set in block.

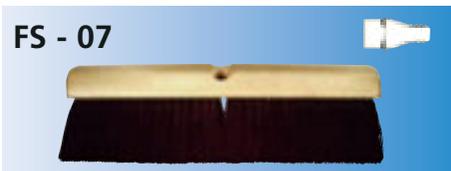

FS - 05

Excellent for shop and store use. Oil-resistant, washable black synthetic fill with crimped center stock and straight casing.

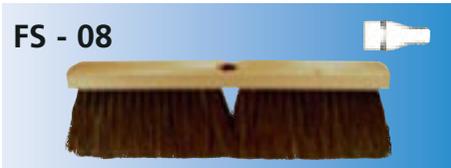

FS - 06

Brown plastic center rows sweep coarse dirt while flagged-top plastic casing sweeps fine dust and grit. For smooth or rough floors with heavy dirt accumulation.

FS - 07

Black tampico fiber in a lacquered hardwood block.

FS - 08

Popular broom has black tampico center with tampico and horsehair casing.

FS - 09

High quality broom with good flexing action. Grey tampico center with horsehair and nylon-reinforced casing.

FS - 12

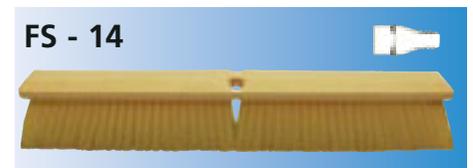

Black plastic bristles staple-set in foam plastic block. For wet or dry sweeping of rough or semi-smooth surfaces.

FS - 11

Oil treated stiff palmetto center with horsehair casing. Stiffer center moves heavy dirt in factory or warehouse.

FS - 14

Densely set yellow plastic bristles. For wet or dry sweeping. Excellent versatility, can handle fine dust or coarse debris.

Floor Sweeps, Garage and Street Brooms – Coarse Sweeping

Heavy Sweeping brooms are recommended for sweeping concrete and other rough surfaces such as pavement and factory floors.

FS - 16
Non-absorbent brown plastic filament may be used for wet or dry sweeping. Oil-resistant and easy to wash.

GB - 01
Stiff Palmyra fiber for wet or dry sweeping on rough concrete or wood floors.

GB - 02
Stiff black polypropylene fill is not affected by grease, water, or oil. For wet or dry sweeping of rough concrete or asphalt.

ST - 01
Heavy-Duty street broom heavily filled with 5 rows of African Bass fiber.

ST - 02
Bass / Palmyra mix for wet or dry sweeping of barns, streets, highway work, etc.

ST - 03
Durable stiff synthetic fiber with flared end, will outlast most natural fibers.

Broom Handle Key

Please see **page 90** for additional information on broom handles and other accessories.

- Uses Tapered Handle
- Uses Strip Broom Handle
- Uses Threaded Handle
- Uses Contractor Handle

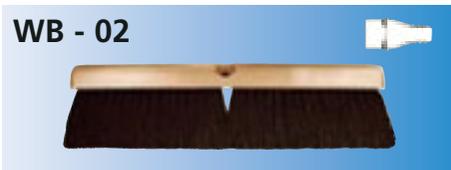

WB - 01
Steel wire center row easily penetrates dirt and grease. Black horsehair and plastic border. For dry sweeping of rough surfaces and paved floors.

WB - 03
Steel wire center row, black Tampico inside rows, black horsehair and plastic border. Ideal for filling stations, garages, wherever heavy dirt or grease accumulate.

WB - 05
Flat wire broom features .017 x .059 tempered carbon steel wire. Especially effective for work on uneven, rough surfaces, as in road repair and steel millwork.

WB - 02
Steel wire center with shorter trim than surrounding tampico fiber fill. Added pressure engages wire with the brushing surface to penetrate heavy dirt and grease.

WB - 04
Excellent for heavy duty floor cleaning. This round wire broom has stiff wires that really move heavy sweepings and remove accumulations adhering to rough surfaces.

Concrete Finishing and Driveway Coating Brushes Upright, Track and Whisk Brooms

For applying fine finishes on newly poured concrete. Block features threaded hole for handle, and drilled hang-up hole.

Wooden handle	Stiff natural fill						

Track brooms feature a narrow face for softer sweeping. This broom has a steel chisel handle end for tough-to-remove debris such as chewing gum.

Bass fiber for wet or dry sweeping on rough floors. Compact for use in narrow areas.

Selected corn filament for light sweeping on smooth floors. Compact broom with 3 twine sews and one wire band for long life.

Use on dust, lint and fine dirt in office, factory or home. Topped by convenient hanging ring.

Economical whisk for multi-purpose dusting. Twisted-in wire construction, loop handle.

For heavy duty cleaning. Has a wood handle grip.

Floor Sweeps - Contractor Series

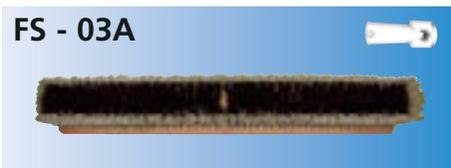

Special block and handle assembly eliminates handle stress. Heavy-Duty line requires special handle (EDP 89901) and is recommended for use with heavy-duty handle brace (EDP 89922). See [page 90](#) for handles, braces, and other broom accessories.

Fine sweep for smooth, highly polished floors and smooth concrete. Will sweep finest dust or grit.

Medium sweep for wood, concrete, asphalt, tile, etc.

Coarse plastic center with fine flagged border rows. For dry sweeping of smooth or rough floors with heavy dirt buildup.

Coarse sweep with tough palmyra fill for wet or dry sweeping of rough or smooth concrete, driveways, and floors.

Contractor style handle features malleable metal connector on high-grade lacquered hardwood pole. For use with F5-A push broom series.

Strip broom handle for use with SP series floor sweeps. 5' length.

Dust Pans, Handle Accessories, Handle Braces

Plastic Hand Dust Pan

Grey plastic dustpan is durable, lightweight, and will not dent.

Metal Hand Dust Pan

Black metal dust pan is 20 gauge steel with enamel finish.

Lobby Dust Pan

Heavy-duty plastic pan with lightweight handle. Gravity-pivoting bucket can be locked down.

Handle Tip Plastic Threads

Convenient replacement tips, threaded plastic.

Handle Tip Metal Threads

Metal clamp-on threaded tip also works as an adapter for threaded poles.

Handle Brace Standard

This brace fits on the underside of the handle between handle and block. Attaches easily with wing nuts. Brace is reusable.

Handle Brace Heavy Duty

This sturdy, reusable steel brace clamps around the handle and fastens to the block with screws. Adds strength and stability. Especially useful with Contractor Handle.

Tube and Spout Brushes

Hand Tube Brushes - Wire

Wire tube and spout brushes are used for internal cleaning in industrial, dairy and laboratory applications.

Hand Tube Brushes - Bristle

Straight face. Brush fill comes in Stiff Black Horsehair or Nylon.

Hand Tube Brushes - Bristle Tapered

* 1-1/4 brush diameter at wide end tapered to 3/4" at narrow end.

Percolator Brushes

Percolator Brushes are straight face. Horsehair fill. For cleaning percolators and coffee urns.

Air Tube Brushes

Farm and ranch industry use. For cleaning bottle filling machines.

Rubber Hose Brushes

Farm and ranch industry use. For cleaning milking machines.

Milk Tube Brushes

Farm and ranch industry use. For cleaning bottle filling machines.

Wall Brushes

Wall Brush - Bristle Better Quality

"Better" quality natural bristle brush for general painting. Good quality black bristle. Green plastic handles.

Wall Brush - Bristle Best Quality

"Best" quality natural bristle brush. Longer length black bristle for increased capacity and longer life. Yellow plastic handle. Protected in a vinyl sleeve

Wall Brush - Bristle Professional Quality

Professional quality natural bristle brushes give the best performance and durability. Softer white bristle gives smooth finish. Great for oil paints, urethane, varnish, etc.

Wood handle gives most comfort and ease of use. Protected in a vinyl sleeve. Nickel plated ferrule.

Wall Brush - Synthetic Better Quality

Better quality polyester wall brush. Great value brush. Polyester is stiff and allows use as a glue applicator and general cleaning brush. Green plastic handle.

Wall Brush - Synthetic Best Quality

"Best" quality polyester brush. Economical to be used as "throw-away," but still provides improved performance. Orange plastic handle. Packaged in vinyl sleeve.

Wall Brush - Synthetic Premier Quality

"Premier" quality nylon/polyester brush for top quality finishes. Nylon component provides increased durability and excellent workability. Blue foam injected handle and full packaging.

Wall Brush - Synthetic Professional Quality

Professional wall brush features solid round tapered polyester/nylon filaments for long lasting performance. Wood handle gives most comfort and ease of use. Full packaging. Stainless steel ferrule.

Wall Brushes, Detail Brushes

**Wall Brush
Synthetic Pro Grip -
Professional Quality**

"UltraGrip" brushes provide exceptional paint release and coverage. Unique rubberized handle provides the most ergonomic comfort. Stainless steel ferrule. Polyester filament.

Overall Width (Inches)	Thick-ness	Trim Length	Qty	EDP Number
3	3/4	3	10	89751
4	7/8	3-1/4	10	89752

**Synthetic Angular
Wall Brush**

Angular brushes designed for "cutting in" for precise painting. Usually for detail painting around trim, corners, etc. Polyester/Nylon mix is designed for all coatings. Blue plastic handle and full packaging.

Overall Width (Inches)	Thick-ness	Trim Length	Qty	EDP Number
1-1/2	1/2	2-1/8	10	89729
2	5/8	2-5/8	10	89730
2-1/2	5/8	2-7/8	10	89731

**Blended
Wall Brush**

"Blended" brush is mixture of white bristle and polyester. Results in a "fine finishing" brush for use with all stains, varnishes, urethanes, and marine coatings. This formulation combines stiffness of polyester with the smooth finish of white bristle. Ideal for woodworking and where finish quality is important. Brush has a plastic handle and a protective vinyl sleeve.

Overall Width (Inches)	Thick-ness	Trim Length	Qty	EDP Number
3	3/4	2-3/4	10	89732
4	3/4	3	10	89733

Foam Brush

Inexpensively priced, single use foam paint brushes for small touch-up jobs. Use on smooth surfaces with all paints, stains, varnishes, urethanes, melamine and gloss paints. Not recommended for shellac and lacquer.

Overall Width (Inches)	Thick-ness	Trim Length	Qty	EDP Number
