

Accident Prevention Tags

Heavy Duty Laminated Tag (B-837)

Designed for harsh plant environments, Heavy Duty Laminated Tag (B-837) are chemically resistant and meet OSHA's 50 lb. pull requirement. These plastic tags are encapsulated in matte polyester laminate for superior durability. Includes nylon ties.

Meets OSHA's 50 lb. pull requirement.

Economy Polyester Tag (B-851)

Economy Polyester (B-851) Tags are chemically resistant. Includes nylon ties.

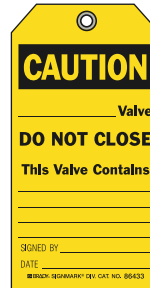

Meets OSHA's 50 lb. pull requirement.

Cardstock Tag (B-853)

Cardstock (B-853) Tags provide an economical, yet durable material option. Includes strings.

- Tags meet OSHA Standard 1910.145 for accident prevention
- Available in three durable materials to meet every application and budget
- B-837 plastic and B-851 polyester tags withstand moisture, grease and dirt and come complete with nylon fasteners
- B-853 cardstock tags come with string fasteners
- Textured write-on surface allows for authorized signatures, dates and other special instructions
- More than 30 stock legends from which to choose
- Two sizes available: 5 3/4" x 3" or 7" x 4"
- Tags feature two chamfered corners and a 3/8" grommeted hole

Arc Flash Labeling Requirements Introduced in the 2002 Edition of the National Electric Code

- EMPLOYERS, not manufacturers or installers, are responsible for complying with NEC labeling requirements
- Switchboards, panel boards, industrial control panels, meter socket enclosures and motor control centers must be field marked. Many companies are also marking conduits, disconnect switches and any other equipment where the risk of arc flash exists
- Any equipment installed after 2002 needs to be labeled. For equipment installed before 2002, labeling must be applied if any modifications or upgrades take place. Many employers are taking the safe, efficient approach of labeling all their electrical equipment, regardless of when it was installed

May We Also Suggest...

Arc Flash Training Aids
see pg. 276

► Arc Flash Labels with Preprinted Hazard Categories

- Labels come with the hazard category and PPE requirements preprinted
- Write-in areas for specifics such as max arc rating, flash protection boundary, etc.
- B-933 Vinyl can be written on with a pen or marker

7" x 5" Arc flash & shock hazard; table

Gas Cylinder Lockout & Labels

► SnapCap™ Gas Cylinder Lockout

- Designed to fit most North American high and low pressure gas cylinders
- Snap Cap™ cylinder safety device meets DOT standards
- Denies access to the main cylinder control and regulator attachment
- Welded steel construction and powder coated for many years of use

Catalog No.	Description
90496	6.5" x 3-1/8" x 11 UN, High Pressure Fine Thread
95137	6.5" x 3-1/2" x 11 UN, Low Pressure Fine Thread
95138	6.5" x 3-1/8" x 11 UN, High Pressure Coarse Thread
95139	6.5" x 3-1/2" x 11 UN, Low Pressure Coarse Thread

► Gas Cylinder Labels

- Self-adhesive paper labels (B-235)
- Labels remove cleanly, leaving no residue on surface
- Choose from a variety of labels
- Label size: 3" x 5"
- Standard package: 10 identical labels

Make sure your gas cylinders are labeled and handled correctly with Brady's Gas Cylinder Labels.
