Kevlar®-Lined, Waterstop™ / Oilbloc™
Goat-Grain Winter Drivers Glove

Kevlar® lining

Oilbloc™ treatment

#378GOBTKL

Supple goat-grain drivers gloves are processed with Superior's own Oilbloc™ treatment for exceptional water and oil repellency. Oil simply won't soak through, not hours—or even days—after being dropped onto leather. (Untreated leather absorbs oils and liquids within seconds of contact.) And because it can't penetrate and leave a mark, gloves are highly stain resistant, and without picking up contamination, provide greater safety. They are also tough and long lasting: goatskin is prized for its high tensile-strength and abrasion-resistant properties, and is often referred to as nature's strongest leather.

Our winter version is lined with 100 gram Thinsulate™ for warmth without added bulk. Elasticized backs for a snug fit, gloves slip on and off easily.
