HIGH PERFORMANCE

PROTECTION

The **ULTIMATE** combination of high-performance protection and aggressive sport-inspired styling.

LENS TECHNOLOGY

Uvex Hypershock™

Uvex Hypershock eyewear delivers the ultimate combination of high-performance protection and aggressive sport-inspired styling. The full frame design offers high impact protection, with streamlined padded temples and a molded nosepiece for a secure, comfortable fit.

Offered in three frame colors and a wide variety of lens tints, Uvex Hypershock is available with Uvextreme Plus® anti-fog lens coating for superior, long-lasting fog free vision that lasts up to 10X longer* and provides 2X better scratch-resistance* than competitive anti-fog coated products.

- Ideal for indoor and outdoor applications in construction, oil, gas & chemical, utilities, landscaping and manufacturing
- 100% dielectric. Can be worn in environments where accidental exposure to electrical charge is possible
- Meets the ANSI Z87.1-2010 standard

Integrated hinge mechanisms with dual cam action

Soft, molded inserts along the temple provide a comfortable and secure fit

Lightweight, wrap-around frame is engineered to fit a wide range of workers, providing increased coverage, side protection and superior peripheral vision

10X ANTI-FOG | 2X SCRATCH RESISTANCE

Uvextreme Plus anti-fog coating performs under the most extreme conditions, providing superior fog-free vision that lasts up to 10X longer* and provides 2X better scratch-resistance* than competitive anti-fog coated products. Also available with scratch-resistant hardcoat for long-lasting protection from scuffing, scratching, and a variety of chemicals.

*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application. Anti-fog performance based on independent lab test results.

POLARIZED LENS TINTS

Uvex Hypershock polarized lenses enhance fine detail and deep colors while reducing the oriented light that causes glare - minimizing eye fatigue, strain and discomfort.

LENS TINTS

- Clear - Ideal for most indoor work applications
- Gray - Minimizes outdoor sunlight and glare
- Amber - Ideal for low-light applications where enhanced contrast is needed
- SCT-Reflect 50 - Light mirror coating ideal for varying light conditions
- Red Mirror - Deflects sunlight and glare
- Blue Mirror - Deflects sunlight and glare
- Espresso Polarized - Offers true color recognition, enhancing fine details and deep colors
- SCT-Blue - For areas where sodium vapor lighting creates high levels of yellow light
- Espresso - Minimizes strong outdoor sunlight and glare
- Gold Mirror - Deflects sunlight and glare
