

LAVAGRIP & XTREMEGRIP

ANTI-SLIP PROTECTION

• TRUSTED QUALITY SINCE 1921 •
RUST-OLEUM®

GripAll

Rust-Oleum GripAll provides you with various levels of anti-slip protection ranging from medium provided by **LavaGrip** to aggressive offered by **XtremeGrip**. This versatile anti-slip solution is composed of a polyurea substrate covered in a durable anti-slip aggregate attached via a strong self-adhesive back. These stair treads are easily cut to custom sizes and can be screwed down for additional security. Ideally suited for interior and exterior applications! Also available in versatile ladder rung covers.

LavaGrip®

- ✓ Superior traction control
- ✓ Textured surface for ensures sure footing- yet still gentle enough for barefoot traffic

XtremeGrip®

- ✓ Aggressive traction control
- ✓ Embedded steel studs create an heavy-duty durable surface to protect against slips
- ✓ Patented stud design defeats debris that may compromise traction. Mud, wet leaves, grass clipping, oil, snow and ice are no match

LavaRungs®

- ✓ Creates traction control on ladder rungs
- ✓ Designed for round ladder rungs and scaffolding rungs
- ✓ Pliable to form to any 3/4" to 2 1/2" rung
