Applied to Life.™

**Anti-fog technology.
Applied to help workers
see clearly, longer.**

Scotchgard™ Anti-Fog Coating Technology brings higher performance to safety eyewear.

Clearly better anti-fog performance.

A fogged lens can be frustrating and dangerous. Removing eyewear to wipe away fog can expose eyes to potentially dangerous workplace impact hazards and debris. The Scotchgard™ Anti-Fog Coating resists fogging longer than traditional anti-fog coatings, even after washing multiple times.

Help workers see clearly, longer.

Scotchgard™ Anti-Fog Coating is designed for working in challenging situations such as:

- Hot & humid conditions
- Indoor & outdoor work
- Physically demanding tasks
- Climate-controlled areas

See what you've been missing with our fog-resistant eyewear.

Try the Solus™ 1000 Series safety eyewear and Goggle Gear 500 Series splash goggle with Scotchgard™ Anti-Fog Coating and see clearly, longer.*

Scotchgard™ Anti-Fog Coating is now available on Solus™ 1000 Series safety eyewear in a range of lens colors (clear, grey or amber). Other features include removable temples, soft nose bridge, optional elastic strap, padded temples for added comfort, and vented, removable foam gasket to help reduce eye exposure.

Scotchgard™ Anti-Fog Coating is also available on 3M™ Goggle Gear 500 Series splash goggle with a low-profile design, adjustable strap and optional prescription insert. All come with polycarbonate lenses, which absorb 99.9% of UV rays.

* Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

The science behind Scotchgard™ Anti-Fog Technology.

The facts are clear:

- Scotchgard™ Anti-Fog Coating **lasts longer** than traditional anti-fog coatings,* helping to increase eyewear performance in wet and steamy environments
- Workers may enjoy reliable, clearer sight longer, because the coating, with its active ingredient, is bonded to the lens
- The coating **retains its effectiveness** for at least 25 washings, allowing workers to wear their eyewear longer
- The coating **can be disinfected** with diluted bleach soaking or alcohol wipes without losing its anti-fog performance
- Workers can **feel confident** wearing Scotchgard™ Anti-Fog coated eyewear because it meets the requirements of ANSI Z87.1 and CSA Z94.3

* Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

Get out of the fog with a new family of eyewear.
