SIMpull™ NON-CONDUCTIVE FISH TAPE

- Spiral extruded polymer design reduces the amount of effort required to push or pull the fish tape through EMT or PVC conduit*
- Non-conductive, glow-in-the-dark, leader allows for easy install over existing wires
- Allows the fish tape to glide through conduit without binding at joints, couplings or 90 degree bends
- Combines the strength of a steel fish tape with greater flexibility than fiberglass fish tapes*
