Advanced protective headgear. Applied to making work more comfortable.

	⚠WARNING
<p>These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134, including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.</p>

3M™ Versaflo™ M-Series Headgear for Powered and Supplied Air Respirators

3M.com/Versaflo

Dependable protection, exceptional comfort and ease of use

3M™ Versaflo™ M-Series headgear for powered and supplied air respirators are lightweight, compact and easy to maintain while helping to provide the wearer with protection from a range of hazards. Their versatility helps make them popular for many applications.

Directed airflow

A built-in air deflector allows users to direct the location of the airflow inside the headgear for increased control and comfort.

Modern, well-balanced, comfortable design

Versaflo™ M-Series headgear is lightweight, with excellent balance. The suspension includes six-point textile straps (four-point straps for 3M™ Versaflo™ M-206 Faceshield) for optimal comfort and weight distribution.

New visor

A new visor design combines excellent peripheral and downward vision with good optical clarity. Coated visor option provides added chemical and scratch resistance in certain environments.

Easy maintenance

Easily removable parts allow simple cleaning, maintenance and replacement.

Easily adjustable suspension

Featuring an articulating ratchet suspension, M-Series products can be easily adjusted for the comfort of each individual user. The smooth ratchet mechanism allows for precise tightening control.

Versatility

To suit a wide range of needs, industries and applications, Versaflo™ M-Series headgear offer faceseals, covers and shrouds in a variety of fabrics. Accessories include earmuffs, peel-offs and a chin strap.

3M™ Versaflo™ M-Series Faceshields, Hard Hats and Helmets

M-200 Respiratory Faceshield

- Helps provide respiratory (OSHA APF 25) protection, plus limited eye (ANSI Z87.1-2010) protection
- Weighs approximately 613g (1.4 lbs)*
- Lightweight for maximum comfort
- Common for most powder handling, paint spraying, grinding, buffing and general maintenance applications where an approved level of head protection is not required
- Available with a variety of faceseal fabrics
- Also available: M-100 models with removable headtop inserts

M-206

M-207

M-300 Respiratory Hard Hat

- Helps provide respiratory (OSHA APF 25) protection, plus limited head (ANSI Z89.1-2009 Type 1 Class G) and eye (ANSI Z87.1-2010) protection
- Weighs approximately 850g (1.9 lbs)*
- Six-strap textile suspension offers maximum comfort
- Common for most powder handling, paint spraying and general maintenance applications where hard hat protection is required or desired
- Available with a variety of faceseal fabrics

M-305

M-307

M-400 Respiratory Helmet

- Helps provide respiratory (OSHA APF 1,000)** protection, plus limited head (ANSI Z89.1-2009 Type 1 Class G) and eye (ANSI Z87.1-2010) protection
- Weighs approximately 1049g (2.3 lbs)*
- Six-strap textile suspension offers maximum comfort
- Common for most powder handling, paint spraying, and general maintenance applications where the highest level of respiratory protection defined by OSHA and hard hat protection are required or desired
- Four different shroud materials available

M-405

M-407

*Weight is complete assembly.

**Consult 3M Technical Data Bulletin #175 and the M-Series User Instructions for additional information on the Assigned Protection Factor (APF) of 1,000. In Canada, follow CSA Z94.4 or the requirements of the authority having jurisdiction in your region.

3M Automotive Aftermarket Division (AAD) product numbers are found in grey type on selected products.

*Consult 3M Technical Data Bulletin #175 and the M-Series User Instructions for additional information on the Assigned Protection Factor (APF) of 1,000. In Canada, follow CSA Z94.4 or the requirements of the authority having jurisdiction in your region.

** Future configuration with TR-600 models.

† ANSI Z89.1-2009 Type II Class G. CAN/CSA Z94.1-05 Class G protective helmets.

†† For TR-300 Models — operating altitude approx. sea level to 2,600 ft. (800m). For altitudes above 2,600 ft., contact 3M. For TR-600 Models — operating altitude approx. -328 to 16,404 ft. (-100 to 5,000m). For altitudes outside this range, contact 3M.

‡ L-705SG, L-901SG and L-905SG assemblies meet the requirements of ANSI Z89.1-2009 Type II, Class G protective helmets. L-901SG and L-905SG assemblies also meet the requirements of CAN/CSA Z94.1-05 for Class G protective helmets. Note the L-140 chin strap must be used for ANSI Z89.1-2009 Type II (protection from side impacts). Consult User Instructions before use.

3M™ Versaflo™ M-Series Complete System Kits

Build your own Versaflo™ system, or choose from one of our complete system kits. These kits offer the convenience of a complete system tailored to your application — all in one box.

Heavy Industry PAPR Kit

▶ TR-300-HIK

A complete particulate PAPR system for industrial applications where combined respiratory, head, eye and face protection is required or desired. Includes an M-307 Respiratory Hard Hat, a TR-300 Series PAPR kit with High Durability Leather Belt and a BT-40 Heavy Duty Breathing Tube.

Heavy Industry PAPR Kit

▶ TR-300-LIK

A complete particulate PAPR system for applications where combined respiratory, eye, face and hearing protection is required or desired. Includes an M-206 Respiratory Faceshield, TR-306N PAPR with High Durability Leather Belt, BT-30 Length Adjusting Breathing Tube, HE filter, spark arrestor/prefilter, headgear-mounted earmuffs and battery charger.

Belt-Mounted PAPR Kit

▶ GVP-PSK2/37335

A complete PAPR solution for painters. Includes a GVP-CB PAPR Assembly (including battery, comfort belt and charger), a GVP-441 OV/HE Filter with GVP-119 shower cover, a BT-20L Breathing Tube with BT-922 Breathing Tube Cover and an M-206 Faceshield.

Painter's Supplied Air Respirator Kit

▶ SA-100-PSK/37336

For painters who want to use a Supplied Air Respirator. Includes a V-100 Vortex Cooling Assembly, a BT-20L Breathing Tube with BT-922 Breathing Tube Cover and an M-206 Faceshield. A supplied air hose (sold separately) is required to complete the NIOSH-approved system. Contact 3M Technical Service for information on air source options and air quality requirements.
