

PRODUCT SPECIFICATION REPORT

ZEP-FLO™ Liquid Drain Solvent

DESCRIPTION

Strong, liquid, acid-type drain solvent for both corrective and preventative maintenance. Contains concentrated sulfuric acid.

FEATURES

- Fast acting
- Versatile
- Two-pronged action
- Ready-to-use
- Non-tip quart
- USDA authorized

BENEFITS

- Strong acid works quickly to melt grease and dissolve solids stopping up drain.
- Removes many different types of obstructions such as grease, water scale, rust, soap, hair, paper, sanitary napkins, sludge, coffee grounds, and many other organic substances.
- Melts grease and soap due to heat generated, and chemically dissolves all organic matter, rust and scale.
- Convenient liquid form that requires no mixing or time delay prior to using.
- packaged in unique, non-tip quart bottle especially designed with low center of gravity, for safety in use.
- Authorized for use in sewage and/or drain lines in federally inspected meat and poultry plants.

APPLICATIONS

May be used to remove partial blockages and to prevent obstructions in sinks, tubs, showers, floor drains, mop sinks and other drains in hotels, motels, schools, service stations, office buildings, apartments, restaurants, hair salons, department stores, hospitals, nursing homes and anywhere drains are used.

Note: Study label for detailed directions and precautions.
